Adjustable Bases by  
**leggett & platt®**  
finely crafted tranquility™

## PRODIGY™ CE BLUETOOTH® WIRELESS TECHNOLOGY (iOS Devices)

This Adjustable Base can be operated from your personal iOS or Android device through the Leggett & Platt Prodigy CE App. *For Android devices, go to page 9.*

### To pair with your Bluetooth®-enabled iOS device:

1. Go to the App Store.
2. Search for the Leggett & Platt Prodigy CE app.
3. Download the app to your personal device.
4. **Ensure that there are no batteries in the power supply and unplug the base from the electrical power source.** The control box has to be completely off in order to boot back into pairing mode. Wait 3-5 minutes to ensure that the control box completely powers down.
5. **Plug the base back into the electrical power source.** Once plugged in, the under bed lights will come on and stay lit for 1 minute. Then the blue light on the control box will flash for 1 minute to indicate the device is in Bluetooth® / app pairing mode.

**Note: If the blue light on the control box is not flashing, the app will not pair to the control box.**

6. When the blue light starts flashing, tap the app to open. A **Bluetooth Pairing Request** pop-up opens.

**Note: If you are prompted to enter a Child Lock passcode when opening the app, enter the default passcode “4321”. To turn off Child Lock, go to the Settings screen in the app and tap Child Lock button to turn off.**

7. Tap **Pair** in the **Bluetooth Pairing Request** pop-up. The control box will make an audible chime to indicate base is paired.
8. The top of the screen shows  Connected.

If the app does not connect, repeat procedure. If base still does not pair:

1. Close the app (double-tap the home screen, then swipe the app off the screen).
2. Go to Bluetooth Settings and “forget” or “unpair” the device.
3. Return to Step 4 above (pairing) and complete procedure.

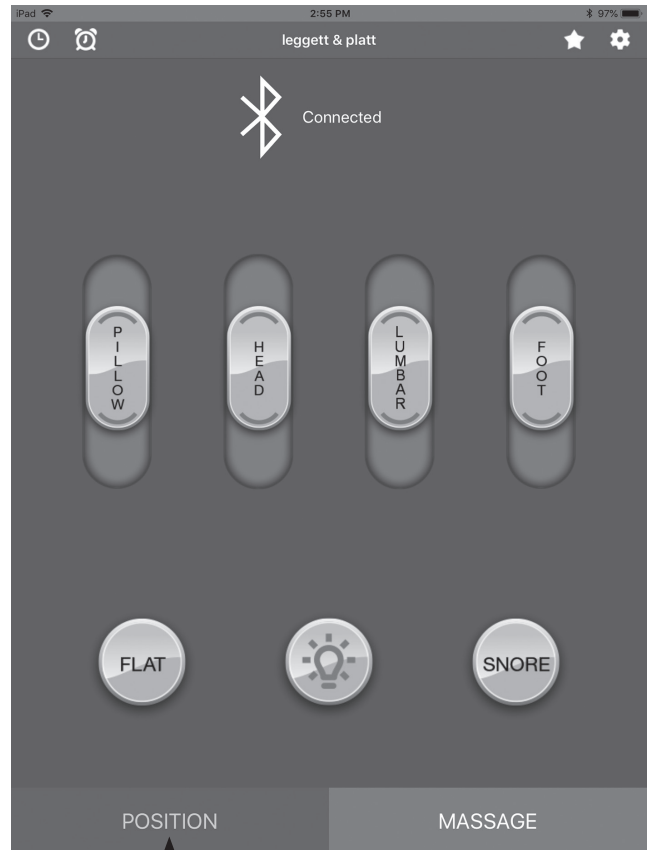

## PRODIGY™ CE APP FUNCTIONALITY (iOS Devices)

### POSITION SCREEN

1. **Pillow** – Slide the 'PILLOW' button up or down to adjust the pillow area of the adjustable base.
2. **Head** – Slide the 'HEAD' button up or down to raise or lower the head section of the adjustable base.
3. **Lumbar** – Slide the 'LUMBAR' button up or down to raise or lower the lumbar of the adjustable base.
4. **Foot** – Slide the 'FOOT' button up or down to raise or lower the foot section of the adjustable base.
5. **Flat** – With the head, lumbar, pillow, or foot raised, tapping the 'FLAT' button will lower head, lumbar, pillow, and foot to the flat position.

6. **Light** – Tapping the 'LIGHT' button will turn the under bed light on/off.
7. **Snore**- The 'SNORE' button raises the head of the bed 7 degrees for 15 minutes. After 15 minutes the head of the bed will automatically lower to a flat position. **Note: Tapping another button after tapping SNORE cancels the timer and the bed will not automatically lower after 15 minutes.**

## PRODIGY™ CE BLUETOOTH® WIRELESS TECHNOLOGY (Android Devices)

This Adjustable Base can be operated from your personal iOS or Android device through the Leggett & Platt Prodigy CE App.

### To pair with your Bluetooth®-enabled Android device:

1. Go to the Play Store.
2. Search for the Leggett & Platt Prodigy CE app.
3. Download the app to your personal device.
4. **Ensure that there are no batteries in the power supply and unplug the base from the electrical power source.** The control box has to be completely off in order to boot back into pairing mode. Wait 3-5 minutes to ensure that the control box completely powers down.
5. **Plug the base back into the electrical power source.** Once plugged in, the under bed lights will come on and stay lit for 1 minute. Then the blue light on the control box will flash for 1 minute to indicate the device is in Bluetooth® / app pairing mode.

**Note: If the blue light on the control box is not flashing, the app will not pair to the control box.**

6. When the blue light starts flashing, tap the app to open.

**Note: If you are prompted to enter a Child Lock passcode when opening the app, enter the default passcode “4321”. To turn off Child Lock, go to the Settings screen in the app and tap Child Lock button to turn off.**

7. The control box will make an audible chime to indicate the base is paired. The Home Screen shows  Connected.

If the app does not connect, repeat procedure. If base still does not pair:

1. Disconnect the base from the wall outlet.
2. Go to your device settings.
3. Go to Apps & Notifications.
4. Find the Prodigy CE app and tap it to open.
5. Tap “Storage”.
6. Tap “CLEAR CACHE” and then tap on “CLEAR DATA.” You will be prompted to delete the app data. Tap “OK.”
7. Go back to device settings and tap “Connected Devices”, then tap “Bluetooth”.
8. Under paired devices, find the Bluetooth® device labeled “LP BED CONTROL” and tap “settings” on the right.
9. Tap “forget” to forget the device.
10. Go back to Step 4 above (pairing) and complete procedure.
